EXPERIENCE

htm.elle, Sept 2019 - Present

Associate Product Manager

htm.elle is a non-profit striving to increase female representation within the entrepreneurial ecosystem through a unique program that integrates cognitive science, computer science, and business. Girls are guided through the entire entrepreneurial process - including ideation, prototyping, pitching, and funding.

- Identify strong and weak points within the classroom curriculum
- Build out an online version of the program to increase accessibility
- Work with the engineering team to implement the online platform

Her Campus Media, Sept 2018 - Present

Writer & Editor

- Produce content on a bi-weekly basis related to lifestyle & personal growth
- Edit ~5 articles a week for clarity and grammar

Humanly.io, July - Sept 2019

Business Development Intern

- Performed the BDR role and utilized a CRM
- Learned about the Talent Acquisition Ecosystem and related technology
- Communicated a SaaS product that is utilizing AI to automate scheduling, reference checking, and pre-screening for recruiting teams

Harper Jr. High, Sept 2018 - October 2019

Cross Country & Track Coach

- Track team progress & goals through a self created application
- Improved athlete mile time by an average of 2:00 minutes during Fall 2018
- Design workout plans, conduct team communications & promote community; 2018 YCAL Boys Champions; 2019 YCAL Girls Champions

PROJECTS

Team Progress Tracker

Designed an app used by ~100 people to track individual progress and team statistics. The data enables me to analyze my coaching tactics and motivate athletes by highlighting their improvement throughout the season.

Personal Project Management

Developed a web/mobile app to streamline projects by breaking them into action tasks with deadlines. This system cultivates accountability and project planning skills.
